

What is Europe for me?

**Alexandra Ivanova – 9-th grade
Foreign Language School – Pleven, Bulgaria**

The meaning of Europe for me

- **The days are gone when we could stand against the universe, on your own . We need to be part of a greater community of nations, for our protection as well as to get into our stride.**

The meaning of Europe for me

- **For me Europe means peace. We are all better together. It means a lot of civil freedoms and human rights.**
- **Europe needs us all to keep and maintain peace – it is so much more fragile than we realize or want to acknowledge.**

The meaning of Europe for me

-
- **Given the relatively small size of Europe, it is for me a place of immense diversity, where a unique and ambitious project has begun with the advent of the European Union. Europe is far more than Europe Union, of course, but it affects all countries on the continent.**

**Happy
Europe day!
Love and
support
others!
Together we
are better!**
